About Us

Get to know about us!

RavvioShop is a feature-rich, eCommerce platform built to help businesses launch and manage their own online marketplaces—without technical hassle. From vendor storefronts and auctions to global payments and mobile apps, everything is unified in one scalable, secure solution designed for growth.

Our Mission

The mission of **RavvioShop** is to empower businesses of all sizes with the technology to sell online through customizable, high-performance marketplaces. RavvioShop removes complexity from digital commerce making it easy to launch, scale, and succeed in today's competitive market.

Our Vision

We envision a world where **every business can own and operate a powerful online marketplace** fully branded, flexible, and future-ready. Our goal is to be the go-to eCommerce engine for multivendor success across industries and borders.

Ravvio Labs

Why RavvioShop?

RavvioShop is a fast, flexible multivendor eCommerce platform built to help businesses grow. From vendor storefronts and auctions to mobile apps and B2C selling, it's packed with features. Global-ready, multi-language, and currency support, and easy to extend with add-ons. Trusted by businesses and backed by strong support, it's built for success.

Ravvio Labs

Our Offerings

Branded Online Storefront

Get your own customized eCommerce website under your store name and logo. We build your brand online —no third-party marketplace distractions or commissions.

Product Catalog Management

Add, organize, and manage all your products with images, descriptions, pricing, and categories. Easily showcase your entire in-store inventory online.

Product Variants & Options

Easily offer different versions of the same product all in one place. Whether you sell food items in different weights or toys in assorted colors, this feature keeps your listings organized and customer-friendly.

One-Page Checkout

Your customers can place orders with fewer clicks and less confusion. Simplified checkout increases conversions and lowers cart abandonment.

Ravvio Labs

Our Offerings

Flexible Product Types

Sell more than just physical items—support digital products like PDFs, gift cards, or downloadable games, and even services or appointments.

Flash Deals Limited Offers

Create urgency with countdown-based flash sales and "Today's Deal" features. Perfect for promoting trending or excess stock.
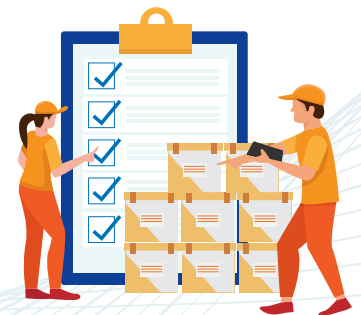

Bulk Import/Export

Upload hundreds of products at once via CSV. Save time when migrating inventory from Excel or another system.

Inventory Tracking & Alerts

Get real-time updates on stock levels. Automatically mark items as out-of-stock or low-stock to avoid selling unavailable items.

Ravvio Labs

Our Offerings

Multi-Payment Gateways

Accept UPI, credit/debit cards, PayPal, Razorpay, Stripe, and even Cash on Delivery. Let your customer choose their preferred method.

Store Pickup & Local Delivery Options

Let customers choose between home delivery or in-store pickup during checkout. Great for stores serving specific local areas.

Mobile Friendly Design

Your website adjusts beautifully to phones, tablets, and desktops. Customers can shop anytime, anywhere, on any device.

Search Engine Optimization

Make your store and products discoverable on Google and other search engines. Use custom URLs, meta tags, and schema-ready pages.

Ravvio Labs

Our Offerings

Live Search & Smart Filters

Users find what they want faster with instant search suggestions and filters (e.g., price, brand, category).

Order & Invoice Management

Track orders, update statuses (pending, shipped, delivered), and generate invoices—all from your admin panel.

Discount Coupons & Campaigns

Run special promotions using discount codes or offers like "Buy 1 Get 1." Useful for both loyalty and clearance strategies.

Secure Customer Logins

Use SMS or email OTP for login and checkout. Adds an extra layer of security and builds customer trust.
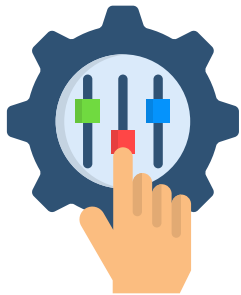

Ravvio Labs

Our Offerings

Instant Notifications

Send real-time order confirmations, shipping updates, and promotions via email or WhatsApp. Keep buyers informed and engaged.

Easy Refund Requests

Enable customers to request refunds directly through their account. You manage returns with clear tracking and policies.

Homepage & Theme Customizer

Update your homepage banners, layout, menus, and colors without touching any code. Make your store visually appealing to your customers.

Data Security

Don't worry about any crucial information being stolen. Your data is secued on Amazon Web Server (AWS).

Ravvio Labs

What is RavvioShop?

RavvioShop is a ready-to-use eCommerce platform that helps you build your own online marketplace. Whether you sell your own products or let others sell on your site, it gives you full control— just like having your own Amazon-style store.

Can I sell different types of products?

Yes, you can sell physical and digital items, run auctions, offer B2B pricing, or even classified listings. The platform adapts to your business model.

Do I need technical skills to use it?

No coding needed! You can manage products, orders, sellers, and payments using a simple dashboard. It's built for business owners, and our team is here to support you during setup.

Can I book a demo?

Yes, you can book a live demo with our team. Just email us at info@ravviolabs.com or message us to schedule a walkthrough.
